

NOTICE OF PROFESSIONAL REGISTRATION & RISK MITIGATION

REF ID: #7410982 | REGIONAL ROUTE: ON-301 | STATUS: ENROLLED / PENDING ACTIVATION

REGISTRATION DATE: May 14, 2026

TO: The Home Insurance Provider / Underwriting Department

FROM: HousePatrol.ca National Risk Infrastructure

PROPERTY ADDRESS: 142 Alternate Route Lane, Muskoka, ON

I. DECLARATION OF COMPLIANCE

This document verifies that the property owner of the above-noted asset has proactively integrated this property into our national reporting infrastructure. This registration establishes a formal **Risk Mitigation Blueprint** designed to satisfy "**Reasonable Care**" and "**Diligence**" clauses regarding unoccupied or vacant premises under standard Canadian residential insurance policies.

II. PROPERTY-SPECIFIC AUDIT BLUEPRINT

The regional reporting system has recorded monitoring protocols for this specific asset. These tasks form the mandatory framework for active patrols:

- [●] **THE HEAT/CLIMATE PULSE:** Mandatory numeric and photographic verification of primary thermostat vitals to mitigate furnace failure (Winter) and humidity/mold hazards (Summer).
- [●] **PERIMETER SECURITY AUDIT:** Physical "Push-Pull" test on all primary entry doors and visual integrity check of all accessible ground-floor windows.
- [●] **STRUCTURE & DRAINAGE SCAN:** Ground-level forensic walk to check for siding damage, missing roof shingles, or blocked foundation drainage.
- [●] **INTERNAL ACCESS AUDIT:** Active 30-second "Sniff & Listen" check for gas/sewage leaks and physical verification of internal deadbolts.
- [●] **WATER ESCAPE MITIGATION:** Physical plumbing and water-line cycle:
 - *Sinks Audited:* 4 Zones Checked (Water briefly run to refresh P-Traps).
 - *Toilets Audited:* 3 Zones Checked (Flushed to maintain fluid seals).
- [●] **BASEMENT MECHANICALS:** Physical integrity check of the Sump Pump basin and a forensic inspection of the Water Heater base for slow leaks.
- [●] **MY SPECIAL ITEM:** Client-directed custom check: "*Verify back workshop door padlock is latched.*"

III. STATEMENT TO THE ADJUSTER / UNDERWRITER

This asset holds **Primary Priority Allocation** within its regional zone. Upon route commencement, a mobile assistant deploys our GPS-verified reporting framework. Every active visit documents the selected vitals with high-definition digital evidence, yielding an unalterable **Paper Trail of Diligence** to secure active coverage and support forensic claim adjustments.

IV. MANDATORY INSTRUCTIONS FOR THE POLICYHOLDER

1. **FORWARD TO BROKER:** Send this PDF to your insurance provider immediately as documented evidence of your professional risk-mitigation plan.
 2. **RETAIN FOR FILE:** Save this document in your records. It serves as your official **Statement of Intent** to maintain professional asset oversight.
 3. **ON-SITE DETERRENCE:** Apply your shipped National Standard high-visibility security signage to primary entrances immediately upon receipt to establish a 24/7 visual deterrent.
-

V. OFFICIAL EXECUTION

By order of the Underwriting Support Division, this statement is formally executed and logged within the National Asset Database on this **14th day of May, 2026** [1].

[ELECTRONIC INFRASTRUCTURE SEAL - FILE RECORD #7410982]
